**NEW****USS The Sullivans Navy Series #7  
Road Number DD-537**

USS The Sullivans was launched in San Francisco, California, on 4 April 1943. By direction of President Franklin Roosevelt it was named for the five Sullivan brothers who lost their lives aboard the USS Juneau when it was sunk by a Japanese sub off Guadalcanal on 13 November 1942. The Sullivans served in WWII, Korea, the Cuban blockade and the rescue efforts of the sub Thresher. It was decommissioned 7 January 1965 and donated in 1977 to the City of Buffalo, NY, where it now resides as a memorial.

**Note: The U.S. Navy Series  
will be concluding July 2008**

**NEW****Boston & Maine  
Road Number BM 77405**

This 50' standard box car with single Youngstown door is painted B&M Blue with dark sills and doors. The sides bear the entwined McGinnis herald in dark blue and white. The car was built in May 1956 and runs on black roller bearing trucks. Pullman-Standard supplied Boston & Maine 1000 of PS-1 box cars in May of 1956. Series 77000-77999 was the first to be stenciled in their new scheme with blue & white McGinnis extended "entwined BM" logo. This herald has since been used in many sizes and color combinations, dark blue & white and black & white.

**Montana Rail Link  
Road Number MRL 62023**

This 61' 8" bulkhead flat car is painted Montana Rail Link Blue and lettered in white. It runs on Barber® roller bearing trucks and carries a pipe load. This car was built in September 1975 and serviced in October 1984. From a 12 car fleet, it has a load limit 186,000 pounds. The MRL took over portions of the Burlington Northern beginning on midnight October 31, 1987. After MRL purchased and repainted the old BN fleet, dates and data remained unchanged. MRL provides freight service for paper, forest products including lumber, and grain.

**Milwaukee Road  
Road Number MILW 63042**

This 60' 8" Thrall® centerbeam flat car has large black "MILWAUKEE ROAD" lettering and runs on black Barber® roller bearing trucks. Thrall® Manufacturing Co. built this 100 car series for Milwaukee Road in February and March of 1977. They were acquired by the Soo Line in the mid 1980s, which was not quick to repaint. The "CHTT" in the consolidated stencil box signifies that this car was first run by the 'Chicago Heights Transfer Terminal Railroad' serving the Thrall plant. These cars were from a design used by Canadian National and centerbeam cars soon became an industry standard due to the ease loading and securing lumber loads. WP was one of the first roads to use this new design.

**Soo Line  
Road Number SOO LINE 29628**

This 40' despatch stock car with single door is painted box car red with white lettering and runs on black Andrews trucks. Stock cars were used all over the railroad until about 1960, when shipping by rail was no longer economical. There was a stopover stock yard at Glenwood that was employed to offload, water and feed; then continue the shipment to Chicago or St. Paul. There were a lot of 'cattle only' trains in the late 1940s, and it would take a fair bite out of a day to water and feed. The cattle were coming from Montana, the plains of northern Minnesota, or the Dakotas, and they would really need the rest when they arrived at Glenwood. A forty car train was not uncommon during the fall of the year.

**Baltimore & Ohio®  
Road Number B&O 363113**

This 50' gondola with fishbelly sides, drop ends and stone load is black and lettered in C&O Federal Safety Yellow. It runs on black Barber® roller bearing trucks. Built in July 1937 by Bethlehem Steel and numbered into the 363050-363149 series. In July 1981 the series was serviced at Raceland Shops and stenciled with the "Ches-C" logo designed by Franklin Carr for the "Chessie System". This paint scheme was applied to "Chessie System" equipment from 1972 through 1986. In mid 1986, the Chessie System vanished into the CSX Corporation. Here the "Ches-C" herald is stenciled just to the right of center. This scheme also includes the use of the "Keep Safety Rolling" slogan.

**Southern Pacific®  
Road Number SP 211206**

This 50' standard box car with double Youngstown doors is painted box car red with white SP herald and white lettering. It runs on Bettendorf trucks. Built in August 1955, this double-door car is one of thousands built by the SP at the Sacramento Shops during the '50s to meet the growing demand for the larger doors, permitting the use of forklifts and larger loading devices. It wears the original 1955-letting scheme with block lettering at the right of the car side and the traditional round emblem at the left. The round emblem was dropped for new or repaints a few years later. Southern Pacific celebrated its California "Centennial" in 1955; #211206 was one of a string of five cars amongst the exhibits presented by SP during this celebration.

### Denver & Rio Grande Western® Road Number 0589

This box car red caboose with two window cupola has white "Rio Grande" speed, white "Denver & Rio Grande Western" lettering and runs on brown Barber® Coleman Arch bar trucks. Built in the early 1900s by the Denver & Rio Grande railroad, this caboose was in use until the road shut down freight operations. There were only six road numbers from 0584-0589. Originally, all six had only one window in the side of the cupola, but in 1943, three of them had the cupola rebuilt to two side windows. These were 0584, 0587, and 0589. The others all kept the single window.

### 30' Log Car

Produced at the dawn of the 20th Century, the disconnects were the backbone of a number of standard and narrow gauge railroads throughout the western United States. Our model represents an all-steel version equipped with Hercules Logging Bunks that swivel as the prototype does. The resin log load is secured with scale brass tie down chains. The model also features Magne-Matic® Couplers on both ends of each car as was prototypical.
