Shippers Car Line Corp. Road Number S.H.P.X. 7675

This black 39' single dome tank car has white lettering and runs on black Bettendorf trucks. Shippers' Car Line is a division of ACF Industries and operates cars under the SHPX reporting marks. Many cars were leased out to private companies. The diamond symbol on the dome denotes the manway bolted cover (dome closure) has a built-in safety feature so that internal commodity vapor pressure can't cause the cover to spring up when releasing the bolts. Newer tank cars we required to have this feature, eliminating the need for the symbol.

**Central New Jersey
Road Numbers CNJ 803 / 817**

These PS-2 two-bay covered hoppers are painted bright red with white logos and lettering. They were built in April 1956 by Pullman Standard and serviced in January 1973. Both run on roller bearing trucks. The principle commodity handled by these hoppers is cement with other ladings including sand, potash, soda ash, soap, plastic pellets and flour. Many of these loads were corrosive, so the hoppers were designed to withstand their inherent effects and keep maintenance regulations to a minimum.
