March 2008

NEW Chesapeake & Ohio[®]
Road Number C&O 31630

This 50' steel side fixed end gondola is painted black with white lettering. It was built in April 1952 by General American Transportation Corporation and serviced in April 1958. It runs on roller bearing trucks. The series was originally built for general service, yet over half of the series was later converted to specialized uses: Coil steel, ferro-manganese ore, containers and glass.

WITH STEEL BAR LOAD

#105 00 160...\$18.15

NEW Reading Company
Road Number RDG 33174

This 50' steel side fixed end gondola is painted black with white lettering. It was built in July 1951 by Bethlehem Steel and serviced in September 1976. It runs on roller bearing trucks. The large 'READING' is spelled out in speed lettering and precedes the 1969 introduction of the green and yellow paint scheme. After this gondola was serviced in September 1976, it retained its original 'built scheme' and has been relegated to company scrap service.

#105 00 150...\$17.35

NEW Union Pacific[®]
Road Number UP 903658

This 40' standard box car with single door is painted aluminum with black logo, slogan and lettering. It was built in May 1940 and serviced in October 1963. It runs on roller bearing trucks. This car, now in company service, has been carefully painted aluminum in mixed schemes applied from the years 1950, 1952 and 1956. Last serviced in October 1963, the car was spotted assigned to motive power and machinery department service at Cheyenne, Wyoming, in June 1992.

#020 00 776...\$14.90

NEW Burlington Northern
Road Number BN 979001

This scale test car is painted yellow and lettered in green. It was built in April 1978 and charged with the responsibility of keeping all the track, truck, baggage and freight scales on their respective lines in perfect condition. The scale inspector's arrival was often preceded by the appearance of this small scale test car. The scale test cars were always to be hauled just in front of the caboose. Immediately upon arrival at the terminal, they were set aside and subjected to a minimum of switching; under no circumstances were they to be used in switching other cars in the train.

#121 00 070...\$12.95

NEW New Haven
Road Number M-23

This scale test car is painted black with gold ends and is lettered in black on the sides and black on the ends. It was built by Lake Erie Engineering Corporation in 1940. Charged with the responsibility of keeping all the track, truck, baggage and freight scales on their respective lines in perfect condition, the scale inspector's arrival was often preceded by the appearance of the small scale test car. The scale test cars were always to be hauled just in front of the caboose. Immediately upon arrival at the terminal, they were set aside and subjected to a minimum of switching; under no circumstances were they to be used in switching other cars in the train.

USS Astoria Navy Series #10
Road Number CA-34

USS Astoria was one of three heavy cruisers guarding the northern approach to Guadalcanal and Tulagi, and was the only one afloat after a blistering night action against a Japanese cruiser force. However, she was gravely damaged in this Battle of Savo Island. Though her crew struggled all through the morning of 9 August to save their ship, USS Astoria succumbed to her wounds shortly after noon, sinking into the depths of a body of water that would soon be called "Iron Bottom Sound," in recognition of all the ships that were lost there.

#038 00 410...\$18.95

Southern Railway
Road Number SOU 43039

This 50' standard box car with double doors and no roofwalk is painted box car red with white and green logo and white lettering. It was built in February 1962 and serviced in December 1981. It runs on roller bearing trucks. This car has been fitted with bulkheads, side rub rails and doorway bars, though equipment varies within the series. It's in assigned service to Conrail at Buffalo, New York.

WITH PAPER ROLL LOAD

#037 00 030...\$22.55

Illinois Central
Road Number IC 799626

This three-bay covered hopper with elongated hatches is painted dark grey with white lettering. It was built in December 1996 and runs on roller bearing trucks. It was built in Canada by National Steel Car of Hamilton, Ontario. Illinois Central is a partner of Canadian National; by lettering the cars for an American railroad, it allowed CN to avoid Canadian sales taxes.

#094 00 200...\$24.40

Denver, Boulder & Western
Road Number DB&W 200

This 30' gondola is painted box car red and lettered in white. It runs on Bettendorf trucks. The Denver, Boulder & Western Railroad was formed in April 1909 to take over the foreclosed Colorado & Northwestern, which was organized in 1897. Commonly called "coal cars" these cars were actually used for hauling ore, scrap iron, lumber and ballast as well.

NEW SD40-2 Loco in Z Scale!

The EMD SD40-2 was built by General Motors' Electro-Motive Division between 1972 and 1986 and proved to be one of the best selling diesel locomotives built to date. EMD delivered 3,957 units driven by a 3,000 horsepower diesel-electric powerplant to most of the large and intermediate railroads in North America. Even after 35 plus years of operation, the SD40-2 with its distinctive front and rear "porches" can be found working mainlines from the icy northern regions of Canada to the warm and varied southern topography of Mexico.
