

**USS Midway Navy Series #11  
Road Number CV-41**

USS Midway, an aircraft carrier of the United States Navy, the lead ship of her class, was the first to be commissioned after the end of World War II. Active in the Vietnam War and in Operation Desert Storm, as of 2004 she is a museum ship in San Diego, California. She is the only remaining aircraft carrier of the World War II era that is not an Essex-class ship. Her revolutionary hull design was based on what would have been the Montana class battleships and gave her superior maneuverability over all previous carriers.

**Chicago & North Western®  
Road Numbers 604 / 608**

These GP9 powered A-unit locomotives are painted green with yellow bands and yellow and green lettering. They were built in May 1957 by Electro-Motive Division of General Motors as part of six-loco build #7540 for Minneapolis St. Louis, which was merged into CNW on November 1, 1960. CNW 604 and 608 were renumbered in 1972 to 4305 and 4309 respectively.

**Union Pacific®  
Road Numbers UP 11131 / 11163**

These 70-ton twin bay covered hoppers are painted dark gray with large Union Pacific heralds and black lettering. They were built in September 1957 by Pullman-Standard and serviced in February 1960. They run on roller bearing trucks. Typical lading for these cars included cement, sand, potash, soda ash, lime, alumina, fertilizers, dolomite, soap, salt, plastic pellets and flour. Since many of these materials were highly corrosive, the twin bay covered hoppers were designed to withstand the freight's effects and keep maintenance regulations to a minimum.
