Road Number SP 4745**

This bay window caboose is painted mineral red with daylight orange ends and bay sides and lettered in white. It was built between March and May 1980 by International Car Co./PACCAR and runs on Bettendorf Swing-Motion caboose trucks. The bay window, or side-hung cupola, debuted on the Southern Pacific Lines in 1947. They were designed in response to increasing freight car height and the resultant decrease in visibility from the cupola.

### Sumpter Valley Railway Road Number SVRY 145

This 30' flat car is painted box car red with white lettering and runs on Bettendorf trucks. The Sumpter Valley Railway Company was incorporated in the state of Oregon, August 18, 1890, hauling people, logs and lumber. The Great Depression forced the short line to abandon its mainline and discontinue passenger service, though the line continued to haul logs and lumber from the sawmills to South Baker. The last freight train steamed into South Baker in 1947. The new Sumpter Valley Railway dates to the early 1970s. It was incorporated as a non-profit in the hope of reviving the old railroad as a tourist line. SVRY 145 is one of the cars now on the new SVRY. The line continues to grow and advocates work hard to preserve and promote this small short line's history.
