

NEW Baltimore & Ohio[®]
Road Name Lake Superior

This 83' Heavyweight 10-1-2 Sleeper is painted with the black roof, blue body and gray sides paint scheme. It's lettered in Dulux Gold with the road name Lake Superior and inside is gray seating. It was built in January 1924 by Pullman Standard and air conditioning added in August 1934. The car runs on six-wheel passenger trucks. The Baltimore & Ohio Heavyweight '10-1-2' Sleepers (10 Section-1 Drawing Room-2 Compartment Sleeper) were built from the Pullman Plan #3585. Pullman's Heavyweight construction was modular, making it possible for floor plans to economically evolve with the times. Cars were generally in service thru the 1960s.

Western Pacific® Road Number WP 20803

This 40' standard box car with single Youngstown door and roofwalk is painted aluminum with large orange feather emblem on the sides. Lettering in the logo, as well as reporting marks and dim data, is black. It was built in November 1951 by Pullman Standard and runs on Bettendorf trucks. In 1951, WP ordered this 600 PS-1 box car numbered in the series 20801-21400; it appeared at that time in WP's standard paint scheme—plain box car red with silver reporting marks square feather herald on the right side of the car. It was sent back to Pullman Standard in 1953 to receive its compartmentizer, re-numbered into series 19521-19542, and re-painted aluminum with a new large orange feather emblems.

WP® is a registered trademark of the Union Pacific Railroad.

Detroit, Toledo & Ironton Road Number DTI 9505

This 50' steel side 15-panel fixed end gondola with low cover is painted black with large yellow DT&I letters, and white and yellow compass logo. Side lettering is in yellow and end print is black. It was built in August 1969, serviced in March 1972, and runs on Barber Roller Bearing trucks. This 10-car series came from Greenville Steel Car Company with their covers and when received were specially equipped with internal bulkheads to haul skids of cut steel blanks. In addition to the covers, these cars came fitted with FreightMaster end-of-car cushioning devices and had wood floors. The lids and ends of these gondolas were painted bright yellow so the crane operator would attach the correct lid to the matching gondola after unloading.

**Great Northern
Road Numbers GN 73237 / 73363**

These 33' twin bay open hoppers are painted light box car red. In 1931, the Standard Steel Car Co. built 500 all-steel hopper cars for the Great Northern. These two hopper paint schemes are within the same road series and were seen in service together. Repairs and repainting at different times over the years account for variations. The GN used hoppers in revenue loading of coal, manganese and zinc concentrates, iron ore, bauxite, sand gravel, crushed rock and sugar beets.
