NEW BODY STYLE!
50' Airslide Hopper

These 50' Airslide hoppers are light blue with blue side panel and yellow lettering and run on Barber Roller Bearing trucks. GATX produced the 4180 cf Airslide covered hoppers between 1963 and 1980 providing customers with an innovative way to load and unload product quickly via air pressure. The unusual box car style design for this hopper allowed for more interior volume than standard hoppers of equal size. Three variations of the body were built, this GACX car represents the post 1973 design and proved rugged enough to be in service today.

#098 00 012...\$29.75

Canadian National

Road Name 'Lake Nipigon'

This 10-1-2 heavyweight sleeper car is painted green with black band and yellow lettering and runs on 6-wheel passenger trucks. As with most railroads during the early part of the 20th Century, providing berthing accommodations for long trans-national routes was a necessity. Pullman Standard Company only developed a few standardized floor plans, the 10-1-2 being one of the more successful ones. They found their way on most overnight trains and offered various levels of comfort for their customers.

#141 00 150...\$34.90

New Haven

Road Number 3294

This 70' heavyweight mail baggage car is Pullman green with white lettering and runs on 6-wheel passenger trucks. Before the advent of aircraft transporting mail across the country, railroads provided most of the bulk postal deliveries all over their routes. Mail Baggage cars gave railroads the flexibility to carry both freight and mail to smaller communities when necessary.

#148 00 100...\$29.95

Lake Erie, Franklin & Clarion

Road Number 1004

This 50' rib side box car with single door and no roofwalk is yellow with black lettering and runs on Barber Roller Bearing trucks. The Lake Erie, Franklin, and Clarion Railroad was a fifteen mile long short line that interchanged with Conrail at Summerville, Pennsylvania to Clarion, Pennsylvania. The road was incorporated in 1913. The LEF&C participated in the Per Diem program during the 1970s to acquire modern cars to better serve their customers.

#025 00 950...\$27.95

NASA Series

Road Number NLAX 175

This weathered 50' steel side, 14 panel, fixed end gondola with fishbelly sides is blue with white lettering and runs on Barber Roller Bearing trucks. Operating a captive fleet of railcars, NASA's unique mission requires specially fitted cars to carry it out. This gondola is designed to transport up to three "SRM" end ring racks, used on the shuttle solid rockets, as well as general freight as needed at the Kennedy Space Center.

Pennsylvania Railroad Road Number 498748

This 3-dome tank car is grey with black lettering and runs on Bettendorf trucks. Built in 1928, these 6,000 gallon tank cars had three separate compartments making them ideal for transporting different commodities in the same car. These proved useful for delivering smaller, as needed loads to their customers.

#066 00 090...\$26.95

Chicago, Burlington & Quincy® Road Number 19825

This 40' hy-cube box car with single door is red with white lettering and white diagonal stripe on the door and runs on Roller Bearing Trucks. Built by Pullman Standard in Bessemer, Alabama, as part of series 19825-19839, these 4900 cubic foot boxcars were known as "baby hi-cubes" because of their short length and taller height. Purpose built to handle loading oversized appliances, they found their way on many midwest and western roads.

#101 00 140...\$28.90

Southern Pacific® Road Numbers SP 513655/513669

These 89' TOFC flat cars are brown with white lettering and run on Barber Roller Bearing trucks. Built as part of series 513650-513699 these flat cars became the basis for a wide variety of conversions, everything from hauling oversized loads to modern auto racks. With the building booms in the west they were called upon to transport oversized loads for both residential and industrial customers region wide.

#071 00 562...\$28.95

Cancarb Road Number ACFX 74082

This 3-bay covered hopper with round hatches is dark charcoal grey with white lettering and blue herald. Owned by ACFX, this car was repainted for CANCARB in 1988. Cancarb Limited is a leading international manufacturer and marketing of medium thermal carbon black, used primarily in the rubber industry.

#093 00 070...\$31.90

Cotton Belt® Road Numbers SWTZ 20-8825/20-8846

These 40' trailers are aluminum with red and black lettering. Cotton Belt Railroad, like most major roads, fielded a large fleet of trailers of different sizes that could be found attached to company trucks or loaded on purpose built flat cars for TOFC service.

These items are not on standing order.

New N Linde Liquified Gas Car 4-Pack!

Accepting Pre-Orders thru September 30th

Linde is the industrial gas division of Union Carbide Company. They used exclusively designed 40' box cars with an inner tank to transport a variety of their liquefied, or cryogenic, gases across the country. The inner tank was permanently installed and it's design allowed the company to control the temperature of the gases for up to 30 days. Our 4-Pack features four of Linde's many different paint schemes and each car will have a resin tank inside.

George Hollwedel--ATSF 3-pack

Santa Fe bought 150 wood cabooses in 1923 from American Car and Foundry. These cars were numbered 1300-1449. They had a long life on the Santa Fe with a few lasting into the early 1970s. They retained the original Arch Bar trucks for their entire life. This lettering scheme was used from 1943 until retirement. The price per 3-pack is \$84.95 with single cars available for \$29.95 per individual car. (\$7.00 S&H US., \$25.00 S&H non-US).
