ATTENTION: New Metal Wheels now available from Micro-Trains...See page 7!

Western Pacific[®] Road Number WP 60434

This 50' standard box car with 8' plug door, no roofwalk and short ladders is brown with white lettering and runs on Barber Roller Bearing trucks. Originally of series 8001-8040, this box car had its roofwalk removed and was renumbered into the 60401-60440 series in the late 1970s. It features the classic Feather River Route herald popular in the early 1900s.

#181 00 020...\$23.70

Norfolk & Western Road Name 'Cuttyhunk'

This 12-1 heavyweight sleeper car is maroon with buff lettering and upper and lower stripes and runs on 6-wheel passenger trucks. Named "Cuttyhunk", this Norfolk & Western heavyweight sleeper car was acquired after the dissolution of Pullman Standard, and it served on numerous east coast trains through the early 1960s before becoming a MOW car.

#142 00 180...\$32.90

Denver & Rio Grande Western[®] Road Number 976

This 78' heavyweight paired-window coach car is painted in Rio Grande gold, silver and black and runs on 6-wheel passenger trucks. Assigned service on the Royal Gorge train, this 1920s-built car continued in service until the early 1960s when it was retired and dismantled.

#145 00 160...\$34.90

Chicago & North Western[®] Road Number TTGX 962759

This 89' tri-level closed autorack is yellow with black lettering and runs on Barber Roller Bearing trucks. Built by Bethlehem Steel in 1969, this 89' enclosed autorack design became the universal standard for most railroads by the mid-1970s, as it prevented vandalism and pilferage and helped to protect vehicles from the elements, and is commonly used to this day.

Friendship Train Series Car

This 50' flat car with platform enclosure and covered spotlight load was part of the 1947 Friendship Train which collected food donated by Americans in cities all across the U.S. to be shipped to the people of France and Italy who desperately needed help following the end of World War II. Ultimately, over 250 railcars of food and clothing were donated.

CTCX 16-Unit Tank Car Set

It is common today to see miles of similarly marked tank cars snaking their way from the refineries to major distribution centers. As a safety measure, Buffer Cars, generally older covered hoppers, are placed at the head of the consist and at the rear providing crush space in case of an accident. This new 16-car set features two BNSF Airslide Hoppers converted to Buffer Cars and 14 modern CTCX tank cars giving the modeler a ready-to-run movable pipeline for their layouts.
